Past Performance:

ERDC Mechanical Maintenance Services | Facility Support Services | Prime Contractor

Perform facility support, routine, scheduled, and preventive maintenance services, including the inspection, repair, and installation of mechanical equipment. Responsible for servicing mechanical equipment in 80 federal agency buildings, including heating, ventilation, and air-conditioning (HVAC) systems; humidity control systems; fume hoods; environmental chambers; special laboratory equipment; air compressors; pneumatic controls; and other mechanical systems.

SWEETTEA | Facility Support Services | Sub-Contractor

Provide facility support services, including HVAC, plumbing, electrical, general maintenance, groundskeeping, logistical support, production control, operations, drafting/CAD operations, and janitorial services for a 1.2 million-square-foot secured DoD federal agency facility with a daily population of over 3,000 personnel. Responsible for servicing designated areas at scheduled frequencies, as well as handling additional tasks as needed, such as emergency custodial and mechanical response.

Perry Point | Facility Support | Prime Contractor

Manage all aspects of preventive maintenance, inspection, and service calls for diesel generators at the Perry Point VA Medical Center. These generators provide essential backup power to the facility, making our role critical to ensuring the continuous operation of the VA Medical Center. Provide around-the-clock (24/7) emergency response services to address critical generator failures or issues. Conduct regular inspections to ensure that the generators and their affiliated accessories function correctly and meet all safety and operational standards.

116th MI Brigade Custodial Services | Janitorial Services | Prime Contractor

Provide custodial services for four facilities, including both office and warehouse spaces. Services include sweeping/dust mopping, vacuuming carpets and rugs, emptying waste containers, damp mopping, servicing restrooms, cleaning fixtures, cleaning showers, window cleaning, spray cleaning, waxing and buffing, stripping and re-waxing floors, and shampooing carpets and rugs.

Army Cyber School (JCIS Courses) | Training | Prime Contractor

Provide instructional support for the U.S. Army Cyber School. Create and maintain training material. Train personnel to successfully serve in CMF-designated work roles, such as Joint Target Analyst (JTA) and Exploitation Analyst (EA). Deliver training material and instruction to enhance the knowledge base of students attending various courses provided by the U.S. Army Cyber School.

U.S. Army Cyber School 170D Instructional Support | Training | Subcontractor

Provide content development support and training instruction for the U.S. Army Cyber School, Cyber Center of Excellence (CCoE). Assist in training students for the Army's new Warrant Officer Military Occupational Specialty and Area of Concentration (AOC) for Instructors (170D/17D) in the Cyber Branch.
