

CAPABILITY STATEMENT

ABOUT OUR COMPANY

Belli is a Service-Disabled Veteran-Owned Small Business specializing in strategic Health IT modernization, clinical transformation, and program execution. Founded by a retired U.S. Army Colonel and former hospital Commander, Belli brings over three decades of leadership across military medicine, federal healthcare, and enterprise technology programs. Belli means strategy — transforming Health IT with clinical precision and purpose.

WHY CHOOSE US

Mission-Aligned Expertise

Belli operates where mission, medicine, and modernization intersect — bringing decades of leadership across military healthcare, federal programs, and enterprise transformation. Our experience ensures every solution serves both patient and mission outcomes.

Strategic Execution

We don't just plan; we deliver. Belli translates vision into measurable results through disciplined program management, clinical insight, and operational precision that sustain modernization long after deployment.

Integrated Clinical & Technology Solutions

Through Fractional CMIO leadership and strategic technology resale partnerships, Belli delivers end-to-end Health IT solutions that combine clinical oversight with modern infrastructure — aligning usability, compliance, and performance.

PAST PERFORMANCE
