JMW SOLUTIONS

CAPABILITY STATEMENT — 2026

SDVOSB | CLEARED WORKFORCE | SAM.GOV ACTIVE

Mission-Ready IT for Federal Agencies & Prime Contractors.

Enterprise observability, cybersecurity compliance, network architecture, cloud services, systems administration, and executive operations for the federal government's most sensitive programs. Veteran-founded. Cleared workforce. Day-one ready.

WHO WE ARE

JMW-Solutions LLC is an SBA-certified Service-Disabled Veteran-Owned Small Business delivering prompt, cost-effective IT solutions to federal agencies, prime contractors, and mission partners—with the precision of a national-level operations team and the agility of a small business. Our 11-person bench brings 153+ combined years of federal IT experience across our six core domains. Founded by a 20-year United States Navy veteran and a senior cybersecurity executive—both of whom served in Executive Branch communications and operations roles supporting the most senior levels of national leadership, operating in the highest-classification, zero-failure-tolerance environments—JMW pairs executive-level mission pedigree with a deep bench of cleared, certified professionals. Eight of our eleven team members bring the same Executive Branch operational pedigree.

Co-Founded by John Maschek, 20-year U.S. Navy veteran, and Mohamed Wurie, senior enterprise systems and monitoring architect.

CORE CAPABILITIES

ENTERPRISE OBSERVABILITY & MONITORING

Multi-platform observability across secure federal networks. Full-stack APM, SIEM, alert design, performance telemetry, dependency mapping, noise reduction, and 10,000+ node monitoring across classified and unclassified environments.

CYBERSECURITY & RMF COMPLIANCE

NIST 800-53, RMF, FedRAMP, CMMC, Zero Trust architecture. ATO documentation, vulnerability management, SOC operations (Tier 1–3), threat intelligence, incident response, and continuous monitoring.

NETWORK ARCHITECTURE & SECURITY

Enterprise network design, routing/switching, CCDE-level architecture, next-generation firewall deployment, data center optimization, and multi-site infrastructure management. DoDAF, TOGAF, ITIL-aligned.

CLOUD & VIRTUALIZATION SERVICES

Multi-cloud strategy across AWS, Azure, and hybrid environments. FedRAMP-aligned cloud operations, migration planning, cost optimization, DevSecOps, and cloud security auditing.

SYSTEMS ADMINISTRATION & OPERATIONS

Windows and Linux administration, Active Directory, PKI/token management, identity operations, patch management, change advisory board leadership, and 24/7/365 NOC/watch officer operations.

EXECUTIVE OPS & MISSION INTEGRATION

Operational dashboards, executive briefing pipelines, infrastructure telemetry for senior leadership, secure communications (HF/VHF/UHF/SHF), COMSEC, cross-domain mission coordination.

ACTIVE PURSUIT AREAS

- ENCORE III subcontracting opportunities
- GSA MAS IT Category 54151 — submission targeted Q1 FY27
- DISA task order support across cleared IT and cybersecurity
- VA VISN 5/6 IT modernization
- Federal civilian observability and zero trust initiatives

MISSION DOMAINS

Defense & Intelligence
DoD, IC, JSOC, and joint programs

Federal Civilian
VA, GSA, Commerce, and civilian agency IT modernization

Homeland Security
DHS, TSA, and protective mission environments

LEADERSHIP-BACKED CAPABILITY

JMW-Solutions LLC is a young company built on deep federal experience. While JMW-Solutions is in its first year of operation, our principals and bench bring extensive personal experience from federal mission programs spanning DoD, the Intelligence Community, federal civilian agencies, and homeland security environments. Specific past performance, individual program assignments, and named customer references are available to verified federal buyers and prime contractor FSOs under appropriate non-disclosure structures.

CONTRACT VEHICLES & DELIVERY

Eligible for direct award, sole-source (FAR 19.1405/1406), competitive set-aside, and subcontract/teaming arrangements. Task order ready with established invoicing, reporting, and quality management processes. GSA MAS IT Category 54151 — submission targeted Q1 FY27.

WORKFORCE COMPOSITION

CLEARED PROFESSIONALS	HIGHEST-LEVEL CLEARANCES	POLYGRAPH CLEARED	EXEC. BRANCH ALUMNI

DIFFERENTIATORS

Executive Branch Pedigree: Over 70% of our workforce served in Executive Branch communications and operations roles at the highest classification levels—a distinctive concentration of operational discipline and security awareness in the SDVOSB market. Combined 40+ years in these roles.

Depth, Not Just Breadth: Doctoral-level cybersecurity expertise, polygraph-cleared personnel, vendor-certified next-generation firewall specialists, and Cisco's highest-tier design certification—deep bench across major defense and federal civilian programs.

Full-Spectrum Mission Coverage: From enterprise observability and RMF compliance to force protection and counter-threat operations—JMW spans the entire federal IT and mission-support lifecycle under a single SDVOSB vehicle.

Immediate Availability: Multiple cleared professionals deployable within days. Full bench mobilizable within standard transition timelines. No ramp-up—immediate domain familiarity from comparable federal mission environments.

HOW WE ENGAGE

- Prime SDVOSB set-aside awards under FAR 19.14
- Subcontracting to primes on existing vehicles (ENCORE III, SETI, T4NG2, GSA MAS)
- Teaming agreements and joint ventures with established federal contractors
- Mentor-protégé relationships under SBA program

WHY JMW-SOLUTIONS WINS

Day-One Operational: Active clearances, current certifications, no sponsorship delays, no training ramp, no transition risk.

SDVOSB Set-Aside Value: Section M evaluation credit, subcontracting plan credit, and a partner that delivers without hand-holding.

Mission-Proven Leadership: Our principals have led programs at the highest classification levels with the operational tempo and zero-failure expectations of your environment.

ENGAGEMENT READINESS

Active SAM.gov registration through 12/16/2026
SDVOSB certification through 02/2029
Task-order-ready with established invoicing and quality management

PURSUIT PIPELINE HIGHLIGHTS

ENCORE III — subcontractor positioning
GSA MAS IT 54151 — Q1 FY27 submission
T4NG2 — VA VISN 5/6 task order targets
DISA — cleared IT staff augmentation

Ready to Win Together.

JMW-Solutions is actively seeking prime contract opportunities and teaming arrangements with established federal contractors. We bring immediate SDVOSB set-aside credit, a fully cleared bench, and zero ramp-up time to your next proposal.
