LEAD Endeavors

INTELLIGENCE AND CYBER

LEAD is headquartered near Augusta, Georgia--a hub for the nation's defense, cyber, and intelligence industries. Our diverse and skilled defense intelligence and cybersecurity team provides critical expertise to the Department of Defense and U.S. Intelligence Community.

INSTALLATION & WORKFORCE DEVELOPMENT

In addition to providing the direct technical expertise necessary for mission success, LEAD also provides critical administrative, training, and security assistance to our federal clients to aid in their success.

- Technology Training and Course Development
- Strategic Communications Assistance
- Visitor Guidance, Access Control, and Cleared Security Escort Services

LEAD Endeavors is a defense intelligence and cyber security analysis and solutions company that provides key technical intelligence, workforce development, and installation support to our Government clients. Our solutions aid the nation's defense industry in creating and implementing offensive and defensive strategies in response to dynamic global events. LEAD currently performs as a prime and subcontractor on multiple Department of Defense contracts.

Full Cycle Intelligence Collection, Analysis, and Reporting

While our work is technical in nature, we pride ourselves on our ability to communicate information and work with an unmatched level of emotional intelligence. Our 20 years in industry has taught us that data analysis is only as good as the speed, accuracy, and relevancy with which it is communicated. We get the right information to the right place at the right time.

Our team members have decades of experience providing expert analytic support to a range of intelligence consumers, from tactical military commanders to strategic policymakers.

Research & Innovation

- **Incorporating AI / ML at the analyst level**
- **Automating predictable and repeatable analytic functions**
- **Jupyter Notebooks for analytic modeling**
- **Refining best practices through honest project review**
- **Incorporating a security mindset into daily tasks**
