- ATO as a Service (ATOaaS)

Systems Design & Engineering (SDE)
- AI/ML Modeling and Solution Development
- Autonomy & Automation Technology
- Robotic Process Automation (RPA)
- Cloud Architecture, Design & Implementation

Data Intelligence (DataINT)
- Big Data Analytics and Automated Digital Forensics
- AI/ML Modeling and Solution Development
- Cyber Threat Intelligence
- Data Cleansing, Tagging, and Migration

EXPERTISE:

AI/ML/Autonomy:
- ODIN
- ARMS
- OMS
- NIST-Autonomy
- AWS AI/ML
- Azure AI/ML

AGILE:
- PMI-PMP
- SCRUM
- SAFe
- Kanban

AI/ML/Autonomy:
- Skyborg
- ODIN
- ARMS
- OMS
- NIST-Autonomy
- AWS AI/ML
- Azure AI/ML

Modeling & Simulation
- AFSIM
- MATLAB/Octave
- Simulink
- Pandas
- NumPy
- Scikit-learn

PROGRAM SECURITY
- Program Protection
- S&T Protection
- Anti-Tamper
- Export Compliance: ITAR, EAR, DEF
- Digital Forensics
- Attack Path Modeling
- Reverse Engineering

- ISO 27002
- ISO 27005
- ISO 31000
- OCTAVE
- FAIR
- COBIT

DIFFERENTIATORS: "INNOVATION"

TECHFORGE is committed to bringing value-driven solutions through experience based executive consulting, innovative technical implementation, and strategic support services to our government, military, and commercial clients. We bring proven expertise in large complex autonomy programs, and automation solutions.

TECHFORGE staff have repeatedly proven their ability to lead successful project portfolios across multiple industries and functional domains; delivering efficient solutions to client needs in areas such as Big Data Analytics, Digital Forensics, and Aircraft and Manufacturing Autonomy.

What makes us the best choice for your needs?
- Our dedicated and talented people, and our exceptional experience.
- Dedicated point of contact and support for your organization.
- Our management and staff have relevant industry expertise and certifications.
- Strategic partnerships with industry experts across all domains.

TECHFORGE has direct experience with your specific, unique challenges. We know your organization and unique culture. **TECHFORGE** has over 100 years of relevant, combined experience; so we can bring efficient, and targeted solutions to solve your needs and challenges.

CERTIFICATIONS:

Certifications include:

CISSP - Certified Information Systems Security Professional

C|EH - Certified Ethical Hacker

PMP - Project Management Professional

AWS-CP - AWS Cloud Practitioner

CSPO - Certified SCRUM Product Owner

ITIL/f - Information Technology Infrastructure Library – Foundation

Azure AI Fundamentals

WHO WE ARE

TECHFORGE Solutions is a registered **Service Disabled - Veteran Owned, Small Business (SD-VOSB)** comprised of seasoned industry leaders who are experts in advanced technologies devoted to serving the military services and our commercial customers.

Our core services focus on Executive Consulting, Subject Matter Expertise on a wide range of technologies and Product Delivery, spanning basic research through advanced systems implementation and production of fully fielded products. Our primary technical expertise centers on Program Protection and Anti-Tamper implementation; Cybersecurity architecture & assessment; DevSecOps implementation (cloud, on-prem, and end-point); Software Architecture, Design & Engineering; and production deployment of fully fielded products.

TECHFORGE | VISION

TECHFORGE is committed to providing a highly desirable workplace culture that delivers value-driven solutions to our government, military, and commercial clients that improve the lives of all people.

PAYABLES

We accept credit cards, purchase cards, ACH, EFT, and BTC.
