

VETERANS ELECTRICAL SOLUTIONS

Powered by Precision, Driven by Safety

Proudly a Service-Disabled Veteran-Owned Small Business

About Us

Veterans Electrical Solutions (VES) is a comprehensive lighting, electrical, security, and energy solutions provider. We now serve Commercial and Federal market customers with cutting-edge LED lighting, engineering, controls, electrical support, security cameras, access controls, and power generation services. VES is your trusted go-to partner for innovative electrical solutions across all market sectors.

Our Mission

Guided by over three decades of Air Force and government contracting excellence, our mission is to deliver unparalleled electrical services to our diverse clientele. We are committed to upholding the values of precision, reliability, and superior customer service that have been our hallmark across every project and partnership.

Our Core Values

- Integrity
- Loyalty
- Excellence
- Safety

Industries We Serve

- Federal
- Pre-fabricated Structures
- Commercial
- General Contracting

Electrical

Delivering high-quality electrical installations, maintenance, and repairs for residential, commercial, and industrial projects.

Lighting

Designing and installing energy-efficient lighting solutions to enhance functionality, aesthetics, and sustainability.

Audio/Visual

Providing cutting-edge AV systems, including sound, video, and conferencing solutions, for seamless communication and entertainment.

Data Communication

Designing and installing reliable network infrastructure, including structured cabling, fiber optics, and wireless solutions.

Security

Overseeing security system installations, ensuring seamless integration of surveillance, access control, and alarm systems.

Project Management

Managing lighting projects from start to finish to ensure that they are executed properly and in a timely manner.

Product Sales

Offering a wide range of high-quality electrical products and components to meet the needs of contractors and businesses.

Building Automated Systems

Implementing smart automation solutions for HVAC, lighting, and energy management to improve efficiency and control.

Power Production and Storage

Providing innovative solutions for power generation and storage, including backup generators, renewable energy, and battery systems.
